S i r :

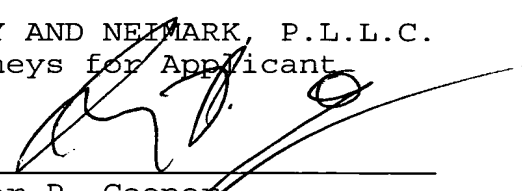

In response to the notice mailed December 24, 2003, informing us that the election of "Group II (claims 45-69) was non-responsive, but considered a bona fide reply, applicants hereby elect group II (claims 26-45 and 67) with traverse. We thank the Examiner for calling our attention to the inadvertent error in the identification of group II.

We ratify the election with traverse of SEQ ID NO:1, Lys-50 and acrylodan as made in the October 9 election.

This paper is a supplement to the October 9 paper and we maintain all the arguments for traversal made therein.

Respectfully submitted,
